

Kildaire Farms Homeowners Association

ARC Feedback Form

Each neighbor signing the Architectural Request Form should be provided a copy of this page by the requesting property owner.

Neighbors have the right to be informed of planned architectural changes and to provide comments and viewpoints about the requested improvements if they wish. This is not a mechanism for neighbors to provide “approvals” or “denials”, as only the Architecture Review Committee can approve or deny architectural requests, and will do so consistent with the Architectural Guidelines and Standards. This process is, however, intended to ensure homeowners are aware that changes to a neighbor’s property have been requested.

Should you wish to comment on this architectural request, please contact the Architectural Committee via HRW (management company) using the contact information provided below.
